**GUIDELINES LAID DOWN BY FCC RULES FOR USE OF THIS UNIT
IN THE U.S.A. (not applicable to other areas).**

NOTICE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Changes or modification to the product not expressly approved by CASIO could void the user's authority to operate the product.

About the Power Supply

Caution

- All data stored in memory is lost if you remove both batteries at the same time.
- Replace the batteries at least once every 2 years, no matter how much you use the unit.
- Be sure that you keep a separate copy of all important data that you store in the unit.

To replace the batteries

1. Press **OFF** to switch power OFF.
2. Slide the battery compartment cover in the direction indicated by the arrow.

- Slide the battery switch to the "REPLACE ①" setting.
Insert a thin, pointed object into (A) and remove the old battery.

Caution

Be sure to remove only one battery at a time. Otherwise, you will lose all data stored in memory.

- Replace the old battery with a new one, making sure that the positive (+) side of the new battery is facing up (so you can see it).
- Slide the battery switch to the "REPLACE ②" setting and repeat step 4 for the other battery.
 - Be sure to load two new CR2032 batteries at the same time. Never mix an old battery with a new one.
- Slide the battery switch to the "LOCK" setting.
- Replace the battery compartment cover.

Battery Precautions

- Keep + side of each battery facing up (so you can see it).
- Keep batteries out of the reach of small children. If swallowed, consult with a physician immediately.

The batteries that come with this unit discharge slightly during shipment and storage. Because of this, they may require replacement sooner than the normal expected battery life.
